

If you're designing an admin panel (CMS/back-office), here is a recommended module structure with key form fields for each module.

1. User Management

User List

User ID

Name

Email

Mobile Number

Role

Status (Active/Inactive)

Last Login

Created Date

User Form

First Name *

Last Name

Username *

Email *

Mobile Number

Password *

Confirm Password *

Role *

Profile Image

Status (Active/Inactive)

Notes

2. Role Management

Role List

Role Name

Description

User Count

Status

Role Form

Role Name *

Role Code

Description

Status

Example Roles:

Super Admin

Admin

Content Manager

Editor

Event Manager

Gallery Manager

3. Permission Management

Permission List

Module Name

Permission Name

Description

Permission Form

Module Name *

Permission Name *

Permission Code *

Description

Permission Matrix (This is example, create for all the modules)

4. Press Release Management

Press Release List

Title

Category

Publish Date

Status

Featured

Press Release Form

Title *

Slug

Category *

Short Description *

Detailed Content (Rich Text Editor) *

Featured Image *

Attachment (PDF/Doc)

Publish Date *

Expiry Date

Tags

Featured (Yes/No)

SEO Title

SEO Keywords

SEO Description

Status (Draft/Published)

5. News Management

News List

Headline

Category

Author

Publish Date

Status

News Form

News Title *

Slug

News Category *

Summary *

Full Content *

Featured Image *

Gallery Images

News Source

Author

Publish Date *

Tags

Featured News (Yes/No)

SEO Title

SEO Keywords

SEO Description

Status

6. Events Management

Events List

Event Name

Start Date

End Date

Venue

Status

Event Form

Event Title *

Event Type

Short Description *

Event Description *

In Progress

Responded

Closed

Recommended Common Fields (All Content Modules)

Include these fields in Press Release, News, Events, and Gallery:

Audit Fields

Created By

Created Date

Updated By

Updated Date

SEO Fields

Meta Title

Meta Keywords

Meta Description

Canonical URL

Publishing Fields

Status (Draft/Published)

Publish Date

Unpublish Date

Featured (Yes/No)

Media Fields

Featured Image

Thumbnail Image

Alt Text

This structure is suitable for most enterprise CMS/admin portals and supports RBAC (Role-Based Access Control), content publishing workflows, SEO, and audit tracking.
